DEVELOPMENTAL PSYCHOBIOLOGY

Contents, Volume 40, 2002

Number 1, January 2002

Evidence of a Right-Shift Factor Affecting Infant Hand-Use Preferences From 7 to 11 Months of Age as Revealed by Latent Class Analysis 1
George F. Michel, Ching-Fan Sheu, and Michele R. Brumley

The Sleep of Co-Sleeping Infants When They Are Not Co-Sleeping: Evidence That Co-Sleeping is Stressful 14
Melissa Hunsley and Evelyn B. Thoman

Minimum Duration of Reactivation at 3 Months of Age 23
A. Joh, B. Sweeney, and C. Rovee-Collier

Rising Cortisol at Childcare: Relations With Nap, Rest, and Temperament 33
Sarah E. Watamura, Anne M. Sebanc, and Megan R. Gunnar

The Anterior Attention Network: Associations With Temperament and Neuroendocrine Activity in 6-Year-Old Children 43
Elysia Poggi Davis, Jacqueline Bruce, and Megan R. Gunnar

Fetal Responsiveness to Maternal Passive Swinging in Low Heart Rate Variability State: Effects of Stimulation Direction and Duration 57
Jean-Pierre Lecanuet and Anne-Yvonne Jacquet

Long-Term Retention of Spatial Navigation by Preweanling Rats 68
Heidi M. Carman, Rosemarie M. Booze, and Charles F. Mactutus

Number 2, March 2002

Development of Rats' Maternally Directed Orienting Behaviors From Birth to Day 2 81
H. J. Polan, D. Milano, L. Eljuga, and M. A. Hofer

Classical Conditioning in the Rat Fetus: Involvement of Mu and Kappa Opioid Systems in the Conditioned Response 104
William P. Smotherman

Classical Conditioning in the Rat Fetus: Temporal Characteristics and Behavioral Correlates of the Conditioned Response 116
William P. Smotherman

The Interaction of Age and Unconditioned Stimulus Intensity on Long-Trace Conditioned Flavor Aversion in Rats 131
James R. Misanin, Mark G. Goodhart, Matthew J. Anderson, and Charles F. Hinderliter

Functional Recovery and Dendritic Hypertrophy After Posterior and Complete Cingulate Lesions on Postnatal Day 10 138
Claudia L.R. Gonzalez, Robbin Gibb, and Bryan Kolb

Developmental Differences in Temporal Patterns and Potentiation of Isolation-Induced Ultrasonic Vocalizations: Influence of Temperature Variables 147
Kimberly S. Kraebel, Susan M. Brasser, James O. Campbell, Linda P. Spear, and Norman E. Spear

Gastric Saline Infusion Reduces Ultrasonic Vocalizations and Brown Fat Activity in Suckling Rat Pups 160
Eric E. Nelson and Jeffrey R. Alberts

Facilitating Postural Control: Effects on the Reaching Behavior of 6-Month-Old Infants 168
Brian Hopkins and Louise Rönnqvist

Measuring Infant Memory: Does the Ruler Matter? 183
Julien Gross, Harlene Hayne, Jane Herbert, and Paula Sowerby

Manuscripts Accepted for Publication 193
Acknowledgment 194

Number 3, April 2002

Converging Methods in Developmental Science: An Introduction 197
B. J. Casey and Yuko Munakata

Developing a Brain Specialized for Face Perception: A Converging Methods Approach 200
Michelle de Haan, Kate Humphreys, and Mark H. Johnson

Social Interest and the Development of Cortical Face Specialization: What Autism Teaches Us About Face Processing 213
David J. Grelotti, Isabel Gauthier, and Robert T. Schultz

Testing Neural Models of the Development of Infant Visual Attention 226
John E. Richards and Sharon K. Hunter

Clinical, Imaging, Lesion, and Genetic Approaches Toward a Model of Cognitive Control 237
B. J. Casey, Nim Tottenham, and John Fossella

Active Versus Latent Representations: A Neural Network Model of Perseveration, Dissociation, and Decalage 255
J. Bruce Morton and Yuko Munakata

The Lesion Methodology: Contrasting Views From Adult and Child Studies 266
Pamela Moses and Joan Stiles

The Importance of Rapid Auditory Processing Abilities to Early Language Development: Evidence from Converging Methodologies 278
April A. Benasich, Jennifer J. Thomas, Naseem Choudhury, and Paavo H. T. Leppänen

Language, Gesture, and the Developing Brain 293
Elizabeth Bates and Frederic Dick

Different Approaches to Relating Genotype to Phenotype in Developmental Disorders 311
Annette Karmiloff-Smith, Gaia Scerif, and Michael Thomas

A Converging-Methods Approach to Fragile X Syndrome 323
James D. Churchill, Aaron W. Grossman, Scott A. Irwin, Roberto Galvez, Anna Y. Klintsova, Ivan Jeanne Weiler, and William T. Greenough

Convergence of Psychological and Biological Development 339
Michael I. Posner

Number 4, May 2002

Prenatal Ethanol Exposure and Spatial Navigation: Effects of Postnatal Handling and Aging 345
Kara I. Gabriel, Sarah Johnston, and Joanne Weinberg

What Does Fetal Movement Predict About Behavior During the First Two Years of Life? 358
Janet A. DiPietro, Marc H. Bornstein, Kathleen A. Costigan, Eva K. Pressman, Chun-Shin Hahn, Kathleen Painter, Barbara A. Smith, and Linda J. Yi

Transnatal Olfactory Continuity in the Rabbit: Behavioral Evidence and Short-Term Consequence of Its Disruption 372
Gérard Coureaud, Benoist Schaal, Robyn Hudson, Pierre Orgeur, and Pierre Coudert

The Effects of Age and Sex on Mental Rotation Performance, Verbal Performance, and Brain Electrical Activity 391
Jonathan E. Roberts and Martha Ann Bell

Twenty-Four-Hour-Old Lambs Rely More on Maternal Behavior Than on the Learning of Individual Characteristics to Discriminate Between Their Own and an Alien Mother 408
A. Terrazas, R. Nowak, N. Serafín, G. Ferreira, F. Lévy, and P. Poindron
